Everett, WA, 98012 | olha.prysiazhna@gmail.com | LinkedIn | GitHub | 425-219-6653

Frontend Developer with **4+ years** of experience in creating dynamic and responsive web applications using **Angular** and **React**. Specializes in the **TypeScript** and skilled at developing efficient and maintainable frontend solutions. Improved application performance by **22%** through optimized data flow and reduced network requests. Experienced in working in agile environments and collaborating with cross-functional teams to deliver high-quality solutions.

SKILLS

TypeScript	Node.js	MongoDB	PostgreSQL	HTML	CSS
JavaScript	GraphQL	RxJs	SCSS	SASS	LESS
Angular	Nest.js	NgRx	Zustand	Redux	Akita	Material UI	Bootstrap	Nebular
React	REST API	GitHub	GitLab	Azure DevOps	TailwindCSS
Ionic	Firebase	Agile	

WORK EXPERIENCE

Frontend Developer | Trinetix, Ukraine   09.2021 - 03.2024

- Used state management to optimize data flow and reduce the frequency of API calls, resulting in a **22%** decrease in network requests and improved application performance
- Implemented reusable **Angular** components and modules to improve code efficiency and maintainability
- Developed responsive email templates using **HTML** and **CSS**
- Managed task tracking, pull request creation, branch management, and build deployments in **Azure DevOps**, facilitating seamless collaboration and version control within the development lifecycle
- Collaborated closely with back-end developers to integrate **RESTful API**s, improving the scalability of the client's digital infrastructure
- Participated in **Agile** development processes, including sprint planning, daily stand-ups, and retrospectives
- Conducted code reviews and provided constructive feedback to team members, fostering a culture of continuous improvement and knowledge sharing
- Implemented new features and addressed technical debt, resulting in significant improvements in code quality and performance

Angular developer | ProCoders, Ukraine   11.2020 - 09.2021

- Implemented **PWA** and **service workers,** contributing to a **14%** increase in user engagement and retention
- Developed a multi-platform e-commerce solution, including a mobile app and website for retail customers, as well as an admin panel for product and order management
- Used **Ionic** framework for cross-platform development and **Firebase** for backend development, ensuring seamless user experiences across various devices and operating systems, as well as scalable and secure data management
- Created a language service and translation dictionary to enhance communication in diverse linguistic contexts
- Developed 11 new reusable UI building blocks used to create dynamic and user-friendly interfaces

Full-stack developer | JsDaddy, Ukraine   06.2019 - 11.2020

- Developed and implemented a statistics page using **Chart.js,** significantly enhancing data visualization efficiency. This improvement enabled hiring managers to reduce their data analysis time by **17%**, facilitating quicker decision-making
- Used **Nest.js**, **PostgreSQL** and **Angular** to implement meeting scheduling and management functionalities for HR personnel
- Designed over 20 responsive pages within the application using **React**
- Resolved layout and styling issues in **Angular** applications for different screen sizes and devices by implementing responsive design principles, utilizing media queries, and optimizing **CSS** styles to ensure a consistent and visually appealing user experience across desktop and mobile platforms

EDUCATION

Master of Cyber Security   06.2017 - 02.2019
Kharkiv National University of Radioelectronics, Ukraine

Bachelor of Information Security in Information and Communication Systems   09.2013 - 06.2017
Kharkiv National University of Radioelectronics, Ukraine
